

**MARTIN COUNTY
ADVANCED OR SMART IRRIGATION SYSTEM
VARIANCE APPLICATION**

Property Owner(s): _____

Property Address: _____

Mailing Address (if different) _____

Property Manager/Representative: _____

Telephone: _____ Cell/other: _____ E-mail Address: _____

_____, Owner(s) of property located at _____ in Martin County, Florida, hereby confirm and attest that a review of the evapotranspiration-based (ET) or moisture-sensing-based controlled irrigation system (the "Smart Irrigation System") has been performed by a licensed contractor who verified that the system is properly operating and in compliance with Martin County's Water Conservation ordinance, Section 159.131 et seq. (the "Ordinance"). I acknowledge a failure to comply with the Ordinance's requirements governing the use and operation of the Smart Irrigation System may result in revocation of an approved Smart Irrigation System variance.

Record Drawing Checklist

1. Location, type, pressure, and maximum flow available of all water sources.
2. Location, type and size of all components including but not limited to backflow devices, controllers, flow meters, the lateral pipelines, the mainline, micro irrigation, moisture sensors, pumps, pump start relays, rain sensors, sprinklers, valves, water source, wells, or any other irrigation components.
3. The flow rate, application rate (inches per hour), and the operating pressure for the sprinklers and micro irrigation (within each zone as applicable).
4. An irrigation schedule for each zone for the dry season and the wet season respectively. The schedule should indicate the frequency and duration each zone should operate to meet the plant water requirements without rainfall and stay within the hydraulic capacities of the Sprinkler system installed.
5. Date of installation or renovation.
