

## SUPPLEMENTAL APPLICATION

<b>Occupancy Address:</b> _____	
<b>Tenant:</b> _____	<b>Telephone:</b> _____

Please answer all questions to the best of your ability. The detail of the description will help establish your commodity classification and storage fire protection requirements.

If you cannot answer these questions, please contact the Martin County Fire Rescue/Fire Prevention at (772) 288-5633. You may have to retain the services of a qualified fire protection engineer to evaluate the hazard and prepare a report for fire department review.

Mixed commodity classifications must be protected to the highest commodity classification shown unless it can be proved by engineering analysis the fire protection equipment can protect the hazard.

1. Describe the commodities to be stored. Provide a detailed description of the product(s), packing materials and containers. Products that are packaged with Group A expanded or non-expanded plastics should be described with the amount of each plastic by weight or volume.
  
2. Describe the method of storage. Provide a description of the method of storage such as in solid piles, on pallets (wood, steel or plastic), loose, racks (single, double or multiple-row), carousel, flow-through, bin box, etc.
  
3. Specify the amount of building area designated for high piled storage. Sq. ft.
  
4. Specify the maximum height the material will be stored. feet

FIRE DEPARTMENT USE ONLY	
<input type="checkbox"/>	Based on the information provided, the Martin County Fire Rescue/Fire Prevention has determined your commodity classification is Class _____, and the storage area is Class _____. Deviations from the information supplied may require additional fire protection features.
<input type="checkbox"/>	The Martin County Fire Rescue/Fire Prevention is unable to classify your commodit(ies). You will have to provide an engineering analysis for review and approval.

Please provide the following materials and/or information listed on the next page.
